

## EU CAP Network Seminar

Support Facility for Innovation and Knowledge exchange including  
EIP-AGRI

### ‘Smart circular farming to address high energy and fertiliser prices’

Porto, Portugal | Tuesday 6 - Wednesday 7 December 2022

#### Agenda

The European Commission’s Directorate-General for Agriculture and Rural Development (DG AGRI) and the EU CAP Network Support Facility for Innovation & Knowledge exchange | EIP-AGRI organised a seminar on 6-7 December 2022 in Porto, Portugal to find innovative solutions in response to the accessibility and affordability of energy and fertilisers and build resilient farming and food systems through smart circular economy approaches at farm and local level to safeguard food security and address climate objectives.

#### Event description and objectives

In response to the impacts of the climate crisis and, more recently, the economic consequences and disruptions to food supply due to the outbreak of the COVID-19 pandemic and Russia’s war in Ukraine, the prices for agricultural inputs and products have been driven upward. This contributes to the increased vulnerability of food systems and threatens food security in the long term. Trade disruptions, transportation costs and uncertainties regarding global agricultural markets highlight the dependency on agricultural inputs and commodities. Uncertainties related to energy and fertiliser exports from Russia in particular are putting severe pressure on agriculture and food production in Europe.

The current crisis underlines the urgency of efficient and sustainable use of energy and fertilisers to ensure farm resilience, competitiveness and food security during times of high-priced inputs. Innovative solutions are necessary in order to overcome the current deficits in energy availability and the availability of affordable and sustainable fertilisers. These solutions need to focus on using local resources efficiently, reducing input requirements for production and recycling agricultural wastes and by-products. This would create a more circular approach, with great benefits for the rural economy and ensure a transition towards more sustainable ways of food production.

Knowledge and innovation are essential components in lowering consumption of increasingly scarce resources. Collaboration across sectors and among different stakeholders are key to bringing sustainable solutions from the lab to the ground. The increased availability of data and its use through ICT, IOT, predictive tools and precision technologies can allow resources to be targeted in a more effective and efficient way.

### Overall aim of the seminar

Find innovative solutions in response to the accessibility and affordability of energy and fertilisers by building resilient farming and food systems through smart circular economy approaches at farm and local level to safeguard food security and climate objectives.

### Specific objectives

- Exchange knowledge on successful practices, opportunities and tools relevant for maintaining and enhancing energy security and fertilisers availability and affordability through a circular approach, and specifically on:
  - Increasing self-sufficiency
  - Increasing resource efficiency and sustainability
  - Reducing greenhouse gas emissions
  - Enhancing cooperation at both farm and local level
- Identify challenges caused by lack of energy security and explore potential solutions
- Identify needs from practice and possible knowledge gaps and possible directions for further research
- Promote networking among EIP-AGRI Operational Groups and other innovative projects and relevant stakeholders

### Target Group

The seminar was interactive and focused on exchange of information on good practices and initiatives in EU Member States. There was a diverse range of participants including farmers, advisors, researchers, circular economy specialists, industry representatives...

### Idea and project exchange market

Following the seminar, an additional 'Idea and project exchange market' was organised in the afternoon of 7 December. This involved more one to one interaction and opportunities for individuals and projects to network and exchange ideas to accelerate the uptake of best innovative practices.

## Programme - Seminar

Timing	Day 1: Tuesday 6 December 2022 Agenda
08:00 – 08:45	<b>Registration</b>
08:45 – 09:00	<b>Welcome</b> <ul style="list-style-type: none"> <li>• <b>Wolfgang Bartscher</b>, Director-General of DG Agriculture and Rural Development (DG AGRI), European Commission (video message)</li> </ul>
09:00 – 09:20	<b>Introduction on current crisis and impact on everyday farming</b> <ul style="list-style-type: none"> <li>• <b>Michael Wolf</b>, research policy officer, DG AGRI, unit F.2 Research and innovation, European Commission</li> </ul>
09:20 – 09:50	<b>Getting to know each other</b>
09:50 – 10:10	<b>Inspirational examples on “How to overcome dependency on synthetic fertiliser and fossil energy”</b> <ul style="list-style-type: none"> <li>• <b>Konstantinos Vaiopoulos</b>, Agrofossilfree</li> <li>• <b>Wouter Merckx</b>, Hyperfarm</li> <li>• <b>Elisa Pellegrino</b>, Fertibio</li> <li>• <b>María Rosa Mosquera-Losada</b>, GO-Grass</li> <li>• <b>Stamatia Petridou</b>, Since-AFC</li> </ul>
10:10 – 11:10	<b>Working session “Developing solutions”</b> Introduction in plenary, sessions in break-out groups
11:10 – 11:40	<b>Coffee break</b>
11:40 – 12:50	<b>Working session “Learning from each other”</b> Introduction in plenary, sessions in break-out groups
12:50 – 13:00	<b>Introduction to the field visits</b> In plenary room
13:00 – 13:45	<b>Lunch</b>
13:45 – 18:00	<b>Field trips</b> Field visits in groups of inspirational initiatives near Porto: Operational Group BIOCHORUME/BIOSLURRY, FREETILIZER, FERTIPRADO/ECOSEED project and Alchemy research project. More details to come
19:00	<b>Networking dinner</b>

Timing	Day 2 (morning): Wednesday 7 December 2022 Agenda
08:00 – 08:45	<b>Registration</b>
08:45 – 09:00	<b>Welcome to day 2 and review of day 1</b>
09:00 – 10:00	<b>Interactive session “Project solutions showcase”</b> Small presentations in exhibition style
10:00 - 11:55	<b>Working session “Exploring on-farm resilience”</b> Introduction in plenary, sessions in break-out groups
11:55 – 12:15	<b>Feedback from working session</b> In plenary room
12:15 – 12:45	Final interactive session and closing
12:45 – 13:45	<b>Lunch</b>

## Programme - Idea and project market (limited places)

Timing	Day 2 (afternoon): Wednesday 7 December 2022 Agenda
13:45 – 14:00	<b>Registration</b>
14:00 – 14:40	<b>Welcome back</b>  <b>Tips &amp; Tricks for projects applying for Horizon Europe calls</b> <ul style="list-style-type: none"> <li>• <b>Xurxo Loureiro Veira</b> – EU CAP Network - Innovation &amp; knowledge exchange - EIP-AGRI</li> </ul>
14:40 – 17:35	<b>Interactive sessions:</b> <ul style="list-style-type: none"> <li>• <b>Sharing contacts</b> - Finding potential partners</li> <li>• <b>Project café</b> - Enabling conversations between potential project partners</li> <li>• <b>Identifying projects</b> – Deeper conversations and next steps</li> </ul>
17:35 – 18:00	<b>Closing</b> <ul style="list-style-type: none"> <li>• <b>Magdalena Mach</b> – DG AGRI</li> <li>• <b>Friedrich Leitgeb</b> – EU CAP Network - Innovation &amp; knowledge exchange - EIP-AGRI</li> </ul>

Final programme (updated 07/12/2022).
