

# CAP Implementation: Networking and engagement in implementation

**EU CAP  
NIS NETWORK**  
 Thematic Group on  
 CAP Strategic Plans:  
 Towards Implementation  
 1st TG meeting  
 14/03/2023

## Examples of stakeholder participation (from the previous period)

Tools and manuals for farmers to use

Annual regional conferences, get feedback from regions + farmers on what works well

A challenge that regionalised states are facing is to establish a new governance. how to reaching targets, coordinating, modifying and monitoring is now different

Forum to answer questions on website about proposals

Lack of transparency between MS on CSP Implementation

Discuss with other regionalised states about governance

Need of benchmarking tools on specific measures not only for farmers but also MA.

Repeat to beneficiaries what the new structure is , what conditionality is about - what ecoschemes are and how they can implement.

Being able to read/translate CSPs of other MS - we need a platform to exchange experiences (EC website)

Presentations and recordings on youtube for every measure so that farmers can access and be informed

## Ingredients for success

Structure stakeholders to reach them with different tools

invest in Capacity building of monitoring committees

Share adequate information with farmers

Compare methods between pillars

Establish TG on governance for regionalised states

NNs are a neutral arena that can discuss difficulties about implementation, use them to move forward

Working with regional antennas to detect needs and disseminate activities and CAP plans

ES: possible to find summary of CSP in English

Partnerships with NNs, highlight neutrality

Collaborate with regional authorities to spread the message to farmers
