CAP Implementation:
Networking and engagement in implementation

EU CAP NETWORK

Thematic Group on *CAP Strategic Plans: Towards Implementation*

1st TG meeting 14/03/2023

Examples of stakeholder participation (from the previous period)

New (bigger) ecosystem to operate with

Ingredients for success

Implementing phase - concerns with eco-schemes

Bringing people together in the room - non formal education methods

Exchange of best practices & programmes at MS level (with the potential gaps)

big & smalls meetings with of stakeholders (better small)

Meetings & Conferences for sharing information & findings partners/Networking

Need to have info from the EC (quality & timely) in order to have good implementation

lack of clarity on when the CAP plans are going to be revised MS (by june they have to produce a prediction for LULUCF - need for more nature based solution) Need that this predicitons are available to all and not secret

Online meetings /workshops

Yearly big meeting at national level (e.g. in Berlin the Green week)

Keeping engagement through implementation

Implementation examples/common solutions

EIP calls (Pillar II) - aim to involve more farmers /helpdesk to support in the application for projects

CAP negotiation on the website - trasparency

understanding the metrics (eco-schmes)

Data more open & better monitoring system in order to correct problems

National network dealing also not only with the CAP but also EIP agri

Concrete examples/techniques to face problems (e.g. in the implementation of the eco-schemes)

Regional approach for a better communication toward farmers

International cooperation

all the organisation in RAs have to create their own forum - to meet different communities and close to practices

challenge: to allow all YFOs to follow/be involved - to have a contact point to answer questions

some difficulties in going beyond EU level - lack of interactions with the MA

Previous CAP - An example: afforestation target. It was a failure as MS didn't do enough and dind't share data timely
