

# DESIGN of CSPs: Approaches to networking and engagement contributed to the design of CSPs?

**EU CAP  
STG NETWORK**  
Thematic Group on  
CAP Strategic Plans:  
Towards Implementation  
1st TG meeting  
14/03/2023

## Approaches

**LU:** Open the discussion with Farmers (Revenue). Environment, climate organisations are very keen to discuss and put options on the table. There are already modifications in the eligibility criteria. Very intense involvement, higher than before

**RO:** strong mobilisation of stakeholders. Effort of Ministry to increase dialogue and transparency from initial discussion to implementation

**DE:** Interest because of 1st Pillar, better geographical balance + more people because of online participation. Good balance of information and intervention groups

**RO:** Online process has made it easier to participate

**FR:** Multi-level coordination with stakeholders

**SE:** The process for stakeholders was difficult. Meetings started too early

**FR:** Regional MA organised their own consultations at regional level > share 1st versions of interventions and present educational info about the new CAP model > easy to explain the new CAP.

**DE:** Legal uncertainty - needs are different in regionalised level.

**SE:** no public consultations for the proposal, more in ad hoc basis. Many organisations sent letters/statements in other ways. There was no time for public consultations

**DE:** EU - national - regional level made the discussion very complex + long process + transparency issue

## Stakeholder Influence

*Need for organisational structure to follow the regional and national process*

**PL:** Bigger interest in consultation with mixed experiences from previous periods. Online consultation brought more people, also for CAP plan > 3 rounds of consultation and remote meetings.

A common framework, a common calendar of CAP design between national and regional level is a must to achieve Strategic Plans

**FR:** early involvement allows to better understand the proposal, and 1st version of CSPs > key success for convenient calendar

**PL:** More effective discussions because of remote meetings
