

2nd TG meeting on CAP Strategic Plans: Towards Implementation

25 May 2023

The adoption of [partnership principles](#) and multi-level governance are fundamental to the successful, inclusive, and effective programming, implementation, monitoring, and evaluation of the CAP. The Thematic Group (TG) provides an early opportunity to exchange on the key features, challenges and processes required to take the CSPs forward, ensure appropriate governance and transparency, and foster coherence and synergy across the multiple tools of the CAP Strategic Plan addressing CAP objectives. The Thematic Group also provides an opportunity for members to consider the scope for an internal CSP exchange, with a view to identifying key outputs that could inform the work of the newly established Sub-group on CAP Strategic Plans and be more widely shared in any future CSP stocktaking exercise.

Aims of the meeting:

- Exchange on previously identified key topics of monitoring committees, regionalised countries and opportunities across the two CSP funds
- Consider how peer exchanges and learning between Member States on CSP implementation could be successfully applied.
- Identify future opportunities for future thematic work on CSP Implementation
