

Forum on Best Practices in the Agri-Food Supply Chain

AGENDA

3rd Meeting

Responses to the Cost-of- Living Crisis

16 November 2023

Brussels, Belgium

Funded by
the European Union

The CAP Implementation Contact Point (CAPI CP) of the EU CAP Network, in partnership with the European Commission's Directorate-General for Agriculture and Rural Development, is organising a third session of the 'Forum on Best Practices in the Agri-Food Supply Chain', launched in 2021 as one of the actions envisaged under the Farm to Fork Strategy with the aim of enhancing cooperation between primary producers, improving their position within the food supply chain and increasing market transparency.

Aims of the event

Building on discussions and outcomes of the previous sessions of the Forum, the present event will focus on the impacts of inflation. In particular, the event will:

- Discuss the key challenges from the perspective of farmers, producer organisations, processors, retailers, citizens, and researchers, driven by **rising costs for business** and **higher prices for consumers**, in particular with regards to the green and digital transition.
- Present **experiences and good practices that illustrate how market actors, policy makers and consumers have responded to increased costs and increased prices.**

Timing	Agenda 16 November 2023
