#CSPIImplementation

40 members from 18 countries & EU

- **First online TG meeting on the 27th of February 2024**
- **Second in person TG meeting on the 28th of May 2024**

Objectives of TG

- Raise awareness of mental health challenges in farming settings and their consequences.
- Identify, explore, and share existing best practices for mental health support.
- Discuss strategies to improve access to mental health services and support for farming communities.

First meeting

- Root causes of mental health issues in farming communities were explored.
- Diverse practical initiatives from MS were shared, focusing on prevention, detection, and support for MH issues among farmers.
- Discussions covered support at both farmer and community levels, addressing access to formal mental health services by tackling geographical barriers, improving training, and embracing holistic approaches.
- Common themes emerged, stressing the importance of sustained strategies, awareness campaigns, and recognising the individuality of farmers in mental health support efforts.

Next steps

- Two informal discussions in March and April focusing on “Women and Mental Health” and “Tailored sustainable mental health support for farmers”.

Objectives of TG

- › Share experiences on the design and implementation of green strategies, incl. how various elements of the green architecture are used to meet the specific environmental and climate needs.
- › Explore good practices and issues relating to implementation and how the different elements of the green architecture work together in practice.
- › Develop ideas and recommendations for further improving green strategies in terms of the interventions used, their design and funding.

First meeting

- › Showed that MS's approaches are very different (cases of AT, SE, PT, FR)
- › Issues highlighted:
 - Clear communication and enhanced cooperation
 - Simplification for MAs and farmers
 - Interdependencies and coherence between both funds and different interventions
 - Enhancing environmental ambitions while ensuring economic viability

Next steps

- › Two informal discussions in May (topics tbc, e.g. simplification and enhanced environmental ambition, understanding success, innovative approaches and fostering cooperation, governance).

40 members from 22 MS & EU

- **First online TG meeting on 11 April 2024**
- **Second TG meeting on 4 June 2024**
