## Supporting new entrants into agroecology

EU CAP Network Conference

'EIP-AGRI Operational Groups: Innovation in practice'

How to share results for better uptake by practice, during and beyond the lifespan of the project

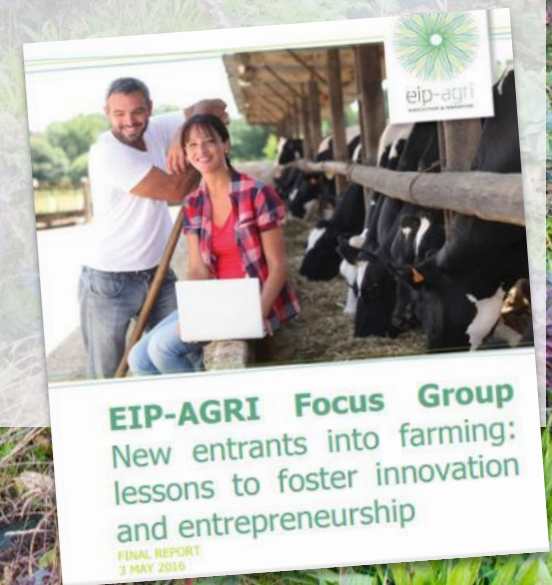

# Background and motivation

In 2020, in Galicia only 6,6% farmers were below 40 y.o. and almost half of them were above 65 y.o.

- Current demographic challenge:
  - acute ageing of farming population
  - scarce generational replacement within the sector and located in specialized areas
- The so-called new entrants into agriculture (NE) may constitute an alternative to this issue.
- Facing additional barriers to the traditional succession model
- Inspired by the EIP-Agri Focus Group: New Entrants into farming.

# Partnership and complementarity

& Co.

VET Centre  
Longstanding  
experience with  
students and the  
sector

Consolidated  
expertise in the  
domain of land  
mobility

Entrepreneurship  
Program in the  
agrifood sector  
attracting many NE

LAG pilot territory  
and experience  
advising NE

Cooperative with  
experience in NE  
support

- Up skill local organizations supporting NE's access and installation
- Development of a toolkit to leverage support actions
- Proposal of a peer-to-peer network for information and knowledge exchange

# Results and how to share them

## Getting to know Galician new entrants

- Characterization
- Recommendations to adjust the current support lines:
  - incorporation
  - land mobilization tools and agricultural land recuperation

## Installation support into agroecology

- Compilation of **inspirational mechanisms** in other EU regions focused on supporting NE
- Guidelines and resources in seeking and gaining access to land for NEs.
- Peer-to-peer network

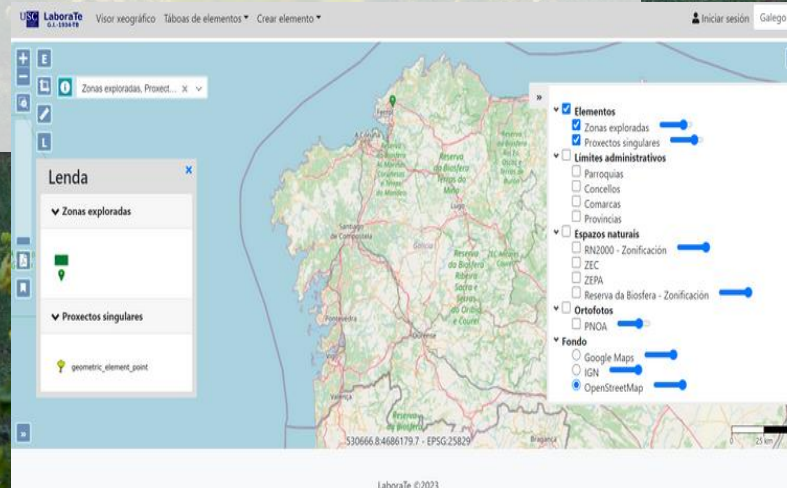

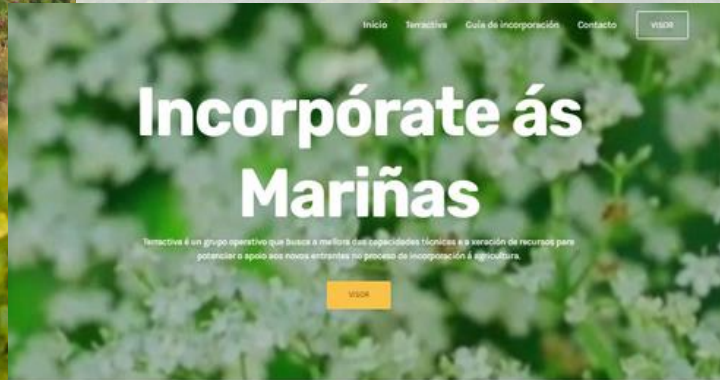

# Results and how to share them

## Finding suitable agricultural land

o Identification of potential agricultural land.

o SIX-Web as a support tool for potential land mobilization - pilot territory Mariñas-Betanzos

## Social Networks -life & virtual-
