Assessing the contribution of carbon farming to CAP climate objectives

- › [Good Practice Workshop](#), organised on 24-25 June 2024 in Nantes.
- › Participants exchanged insights on evaluating carbon storage and sequestration, highlighting the crucial role of CAP measures along with various national and private sector schemes in achieving climate neutrality
- › Case studies from AT, SE, UK
- › Download the [event report](#)

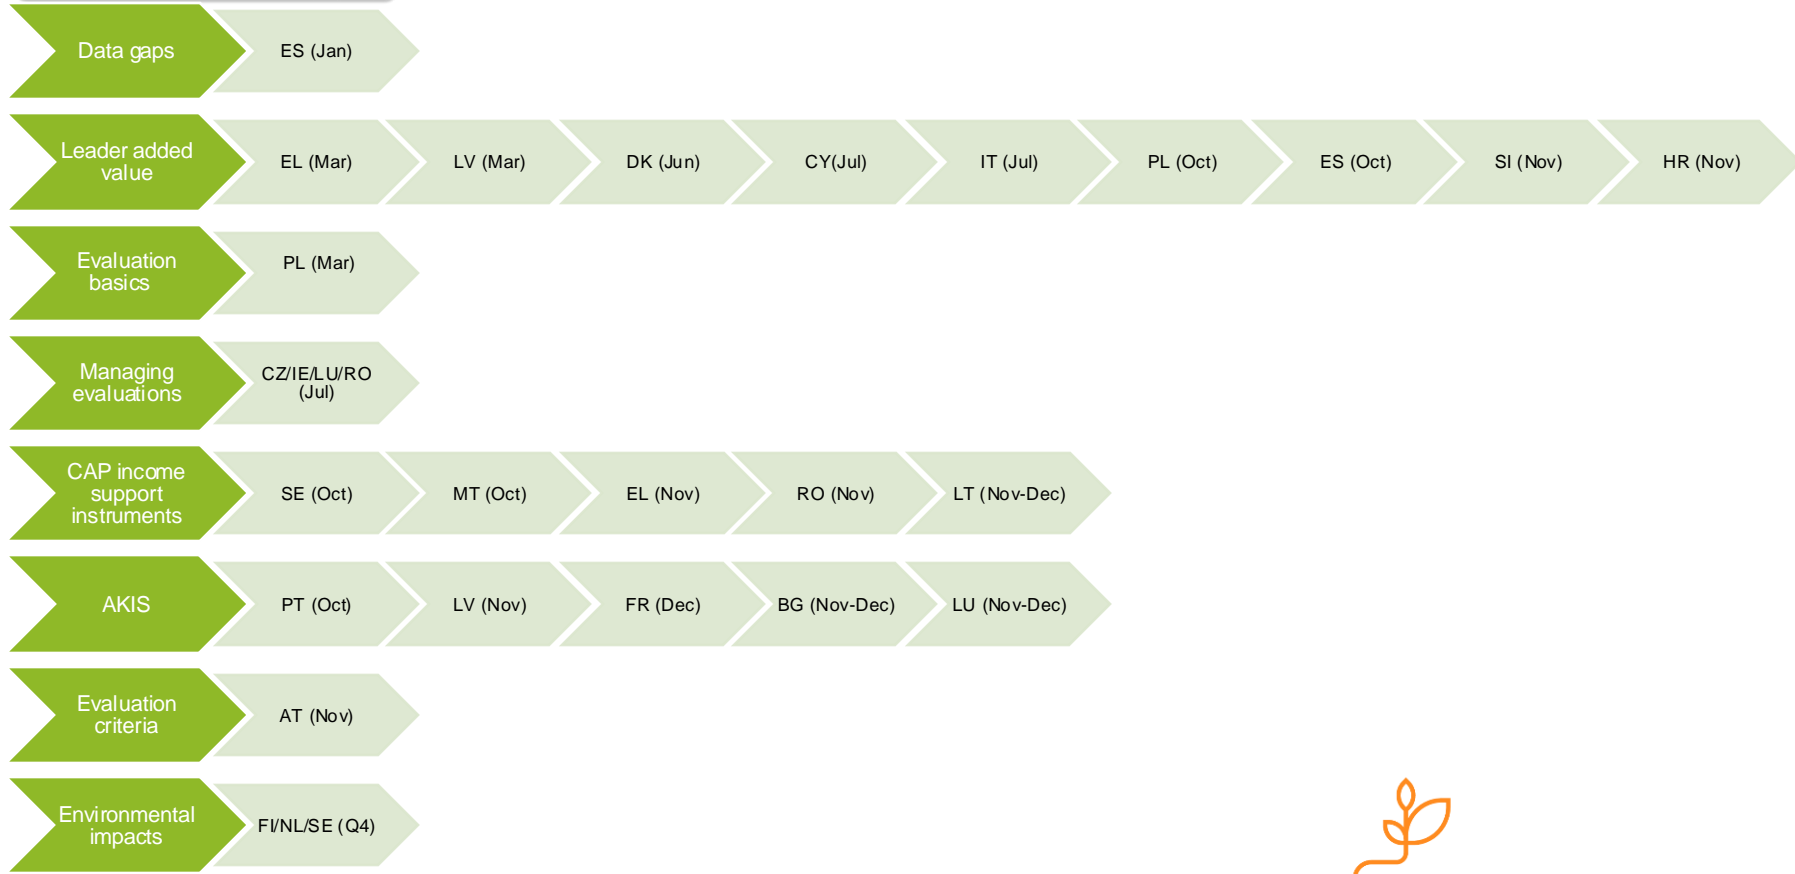

Assessing simplification of the CAP for beneficiaries and administrations

- › [Good Practice Workshop](#) on 7/8 November 2024 in Budapest (Hungary)
- › Framework for assessing simplification
- › Case studies from Member States
- › Study on simplification and admin. burden for farmers
- › Register until 18 Oct.

Capacity building in the Member States

Capacity building : Quantification of rough estimates of CAP contributions on climate

- › To make Member States familiar with the **approach and the outcomes of the study 'Quantification of rough estimates of CSPs contributions to climate'** and to provide support to improve estimates
 - › **Basic training 9/10:** 89 registrations
 - › **Advanced training 23/10:** 19 registrations
 - › **Basic training 13/11:** 134 registrations
 - › **Advanced training 27/11:** 34 participants

Ongoing Thematic Working Groups [\(link\)](#)

- › **TWG 6:** ‘Assessment of sectoral support within the CAP’
- › **TWG 7:** ‘Assessment of results based interventions’
- › **TWG 8:** ‘Assessment of CAP contributions to sustainable productivity’
