“Good practice”

Enhancing Biodiversity on Farmland for Improved Resilience

Applying EU CAP Network outcomes

*>> Sustainable. Agricultural.
Innovative. International.*

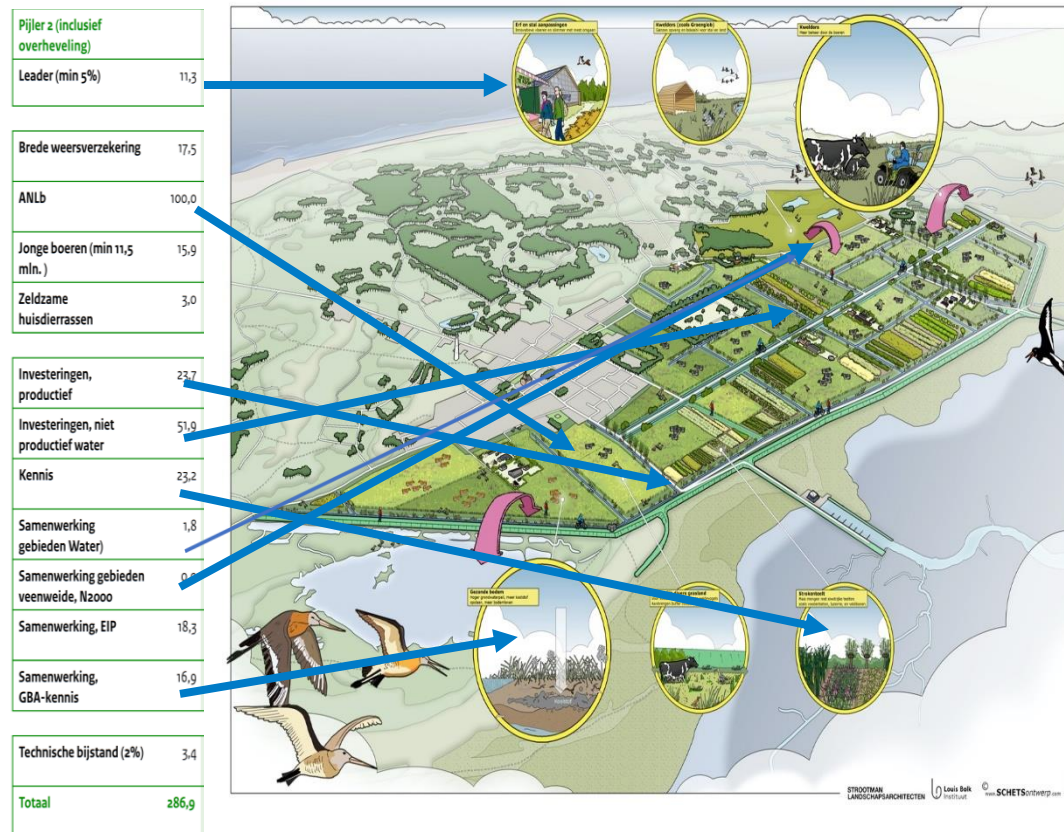

CAP pilots Future proof farming 2021-2024

- Cooperation measure (EIP)
- 22 projects
 - > Futureproof farming and the new CAP
 - > Farming on peat soils
 - > Circular farming
- More on: [de pilots \(pilotsduurzamelandbouw.nl\)](https://depilots.pilotsduurzamelandbouw.nl)

Biodivers farming Schiermonnikoog

Extensification of dairy farming

- reduce the nitrogen burden on the surrounding nature
- improve biodiversity, soil and water quality
- development of a business model for a future proof nature-inclusive agriculture

Inspiration

Examples from other MS: communication to farmers,
rating systems, scorecards

Easy to reach out for specific questions: reduced tillage,
trees, mixed cropping, LPIS
