Assessment of simplification of the CAP

Achievements...

- ...gathered 71 stakeholders to discuss the assessment of simplification of the CAP
- ...carried out an analytical study on simplification and administrative burden for farmers (publication in 2025)
- ...explored the assessment of results-based interventions and their potential to simplify the administration of the CAP (publication in 2025)

Assessing the climate contribution of the CAP

Achievements...

- ...gathered 89 stakeholders to discuss assessment of the contribution of carbon farming to CAP climate objectives!
- ...reviewed 55 MS evaluations related to climate change mitigation/adaptation and summarised lessons
- ...assessed the climate change mitigation potential of 28 CAP Strategic Plans
- ...trained 180 stakeholders in using coefficients to calculate rough estimates of the CSP climate change mitigation potential!

CSP Implementation Highlights

Young LEADER Forum

- 193 representatives from 33 countries
- New ideas and new network stakeholders
- Creation of new actions and communities
- Young LEADER community launched

CSP Implementation Highlights

Forum on Best Practices in the Agri-Food Supply Chain

- Insightful discussions between 155 representatives from the agri-food value chain
- Inspiring range of examples and approaches shared
- Practical and sustainable solutions exchanged
- Clear policy recommendations formulated

Contractual Year 3 overview

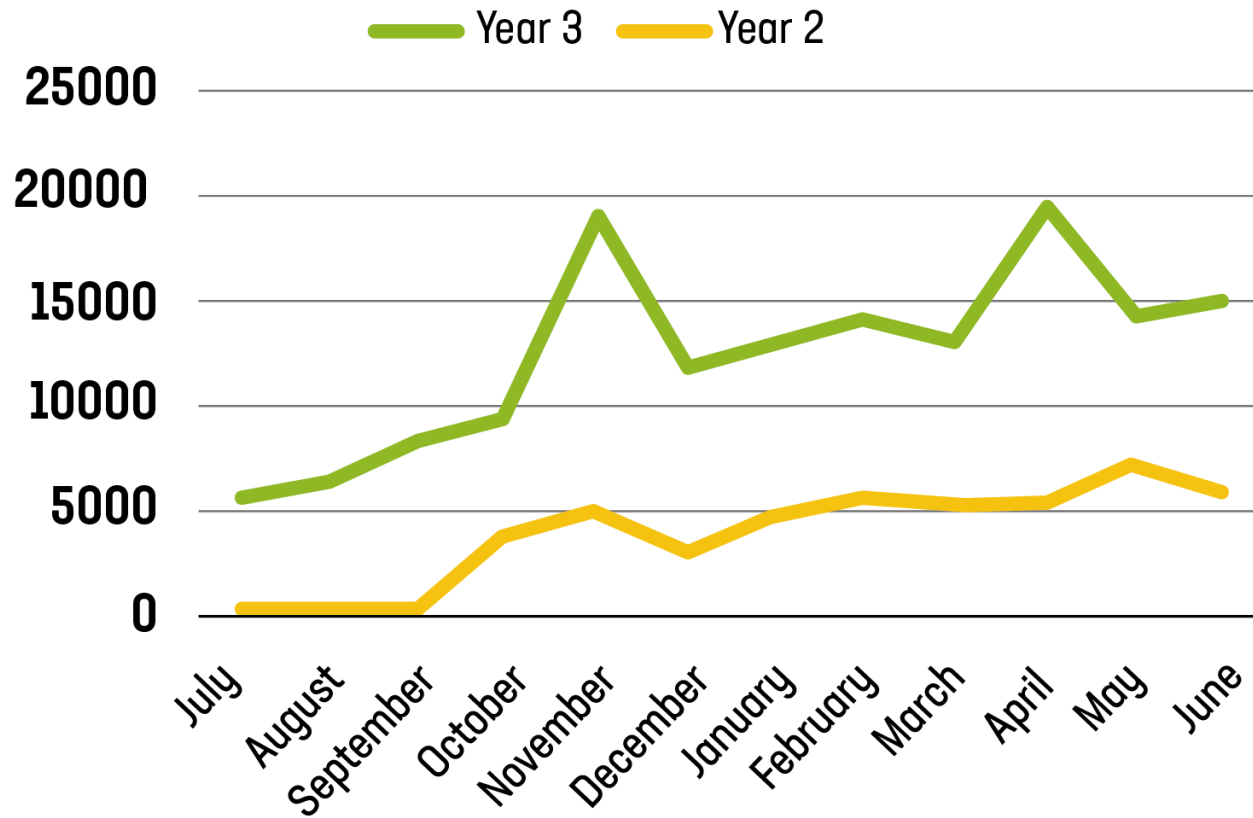

Metrics and stakeholders' data at a glance

- The survey was shared with 26,010 contacts.
- According to SurveyMonkey, for such a number of contracts, **379** responses are needed to get a representative sample at a **95%** confidence level with a **5%** margin of error.
- The annual survey received **805** responses, more than the double of the minimum needed to consider its results may thus be considered representative.

Events

Overall Organisation - Pax Satisfaction Y3

Innovation, knowledge exchange and EIP-AGRI

Workshop 'Circular bioeconomy
valorisation of forest by-products'

26 - 27 March 2025, Kouvola - Finland

- showcase successful initiatives
- identify and map key value chain actors and roles
- discuss innovative practices and ways forward
- identify gaps in current knowledge and practice
- encourage networking

**Call for participants
is open
until 9 December**

Innovation, knowledge exchange and EIP-AGRI

3 cross-visits for EIP Operational Groups
animal welfare – water management - pollinators

Between 5 – 9 May 2025

- cross-border knowledge exchange and peer-to-peer learning
- intensive informal interactions
- potential future collaborations between projects/actors

Calls will open soon

- for hosts EIP Operational Groups (mid December)
- for participants (end January)

More events with a focus on innovation, knowledge exchange and EIP-AGRI

*** workshop 'National Networking for innovation and knowledge exchange' ***

*** seminar 'Robotics and AI in farming and forestry' *** workshop 'Innovation in logistics to improve the position of farmers in a supply chain' *** seminar 'demonstration farms'

Evaluation Helpdesk topics in 2025

Thematic Working Groups

Assessing digitalisation and innovation

Assessment of environment and climate architecture

Assessment of farmer's position in the food chain

Good practice Workshops

Assessment of environmental impacts (incl. use of big data, EO data, FSDN)

Use of simulation models to assess CSPs

Netting out of the impacts of the CAP

Complementary research

Rough estimation of the contribution of the CAP to nutrients balance

Study on coherence of national vs. CAP tools/instruments and level playing field

Assessment of regulations affecting farmers

CSP Implementation Highlights

Upcoming Thematic Groups

Economic Vulnerability of Farming

Food Farm Sustainability Data Network (FSDN) Workshop

Valuing Farmers' Wider Contributions to Society
