About

Land Mobility Service

The Land Mobility Service is a dedicated proactive support service for farmers and farm families who are contemplating Expansion, Changing Enterprise or Stepping Back.

The confidential service allows people explore their options and will help match farmers interested in long leases and collaborative arrangements such as partnerships, share farming or contract rearing.

The Service also supports family partnerships – Options for Landowners and Opportunities for Young Trained Farmers.

Aid

What are our **Strenghts?**

We provide a stepping stone to help alleviate some stress associated with access to land.

We are fully independent and impartial service.

Ability to Matchmake, develop agreements and help with future direction of the farm.

What are our current
Weakness/Threats?

Under staffed

Lack of Funding

THE LAND MOBILITY SERVICE

Our current **Impact**

Figures at the end of 2022 (Finn per comms, 2023) show a total of 962 arrangements since the service began, involving 75,000 acres. The arrangements facilitated include long term leases, partnerships, share arrangements and farm to farm arrangements such as contract rearing.

The service is now at max capacity. As the need for action on generation renewal is growing in Ireland.

Thank You
