

EU CAP Network brokerage event

Partnering for innovation with impact in agriculture and rural areas

AGENDA

Update 17 March 2025

29-30 April 2025 | Prague, Czech Republic

Innovation and Knowledge exchange | EIP-AGRI

Funded by
the European Union

Scope of the event

The aim of this EU CAP Network brokerage event is to support:

- › the preparation of high-quality proposals for the Horizon Europe Cluster 6 calls in the fields of agriculture and rural areas, creating linkages between EIP-AGRI Operational Groups and Horizon projects, and
- › the identification of opportunities for scaling up and scaling out innovations already developed under Horizon and the CAP, thereby maximising their contribution to a more competitive, sustainable and resilient agriculture, and rural areas.

The scope will be related to the topics that are included in the calls for proposals for the Horizon Europe R&I Cluster 6 Work Programme 2025, with the potentially high interest of EIP-AGRI Operational Groups (OGs) and practitioners. The topics have been grouped in the following thematic areas:

- › **Digital and data technologies**
- › **Sustainable, healthy and resilient crop and livestock production**
- › **New business models and value chains**
- › **Circular water management and soil health**

In addition to Horizon Europe, other funding opportunities will be explored to enhance further innovation and collaboration across the sector. These include the Common Agricultural Policy (CAP), the European Investment Bank (EIB), the European Institute of Technology (EIT), the European Innovation Council (EIC), and other relevant European and national, private and public funding mechanisms.

The event is organised by the EU CAP Network, with a focus on innovation, knowledge exchange and EIP-AGRI, in collaboration with the [Czech University for Life Sciences Prague](#) (CZU).
