

EU CAP Network brokerage event

'Partnering for innovation with impact in agriculture and rural areas'

AGENDA

Final
Update 22 April 2025

29-30 April 2025 | Prague, Czech Republic

Innovation and Knowledge exchange | EIP-AGRI

**Funded by
the European Union**

Objectives of the event

The scope of the EU CAP Network brokerage event 'Partnering for innovation with impact in agriculture and rural areas' lies within the topics in the calls for funding under the Horizon Europe R&I Cluster 6 Work Programme 2025, potentially with high interest for EIP-AGRI Operational Groups (OGs) and practitioners. The topics have been grouped in the following thematic areas:

- › **Digital and data technologies**
- › **Sustainable, healthy and resilient crop and livestock production**
- › **New business models and value chains**
- › **Circular water management and soil health**

In addition to Horizon Europe, other funding opportunities will be explored to enhance further innovation and collaboration across the sector. These include the European Institute of Technology (EIT), the European Innovation Council (EIC), the Circular Bio-based Europe Joint Undertaking (CBE JU), and other relevant European and national, private and public funding mechanisms.

The aim of this EU CAP Network brokerage event is to support:

- › the preparation of high-quality proposals for the Horizon Europe Cluster 6 calls in the fields of agriculture and rural areas, creating linkages between EIP-AGRI Operational Groups and Horizon projects, and
- › the identification of opportunities for scaling up and scaling out innovations already developed under Horizon and the CAP, thereby maximising their contribution to a more competitive, sustainable and resilient agriculture, and rural areas.

The event is organised by the EU CAP Network, with a focus on innovation, knowledge exchange and EIP-AGRI, in collaboration with the [Czech University for Life Sciences Prague](#) (CZU).
