

Herenboeren Nederland

(literally *Gentlemen farmers* actually *Civilian Farmers*)

What? Community Supported Agriculture by a group of “civilians” in a region that financially own / support, voluntarily work for the farmers operationally running the farm.

How? National format of “Herenboeren Nederland” with local independence coming from the General Assembly of the civilian farmers.

Why? Own (organic) food production and a shorter food chain, to be more connected to food production and grow awareness about agriculture.

Van idee naar Herenboerderij in 9 stappen

Ben jij nog geen Herenboer, maar wil je dit wel graag zijn? Kijk dan of er al een Herenboerderij of initiatief bij jou in de buurt zit. Of start zelf een nieuwe initiatiefgroep. Herenboeren Nederland begeleidt initiatiefgroepen bij het hele proces.

HERENBOEREN
SAMEN DUURZAAM VOEDSEL PRODUCEREN

The proces

Step 1: regional idea of one or more persons

Step 2: creating a group for a start-up

Step 3: founding of a cooperation in HB NL

Step 4: collecting members (250 households)

Step 5: renting land (preferably 15 to 20 ha)

Step 6: hire operational farmers (preferably two)

Step 7: spatial planning land and permits

Step 8: start of the farm, general assembly
and the forming of workgroups

Step 9: balancing the foundation of HB NL

- driven by nature (organic)
- socially connected
- economically secure

After ten years

- 22 operational farms
- and 8 start-ups
- almost 10.000 households engaged
- or 20.000 civilian farmers
- growing awareness about the real how and what of agriculture.
