Area 42

The Seminar aims to support stakeholder collaboration around the implementation of the Common Agricultural Policy (CAP). Building on the first results of the CAP Strategic Plans, the seminar will offer a space to assess progress mid-way through the CAP 2023–2027 period. It will focus on practical experiences, implementation challenges, and opportunities for improvement, fostering dialogue to reflect on what works and what needs improvement to deliver on the CAP objectives.

**Through both plenary and interactive sessions, the seminar will focus on:**

- Assessing progress and challenges in the implementation of CAP Strategic Plans, explore best practices, success factors and obstacles encountered both in preparation and implementation phases, and identifying practical solutions to enhance delivery across Member States.
- Strengthening stakeholder ownership and collaboration, drawing on EU CAP Network experiences and engaging diverse actors to co-create more inclusive policy pathways.
- Identify opportunities for action, focusing on how existing tools and mechanisms can be better leveraged to enhance results and support inclusive and coherent implementation of CAP Strategic Plans.
