

Rural Development Priority 4 (P4):

Restoring, preserving and enhancing ecosystems related to agriculture and forestry

Situation at the end of 2021

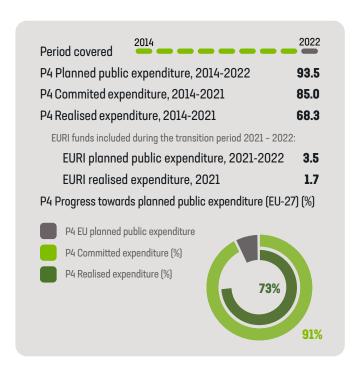

This factsheet contains monitoring data aggregated at EU level (EU-27), providing a comprehensive overview of the state of play in the implementation of the rural development Priority 4 (P4) 'Restoring, preserving and enhancing ecosystems related to agriculture and forestry'. In particular, Section 1 presents financial expenditure1 including the additional funds introduced from the European Recovery Instrument (EURI). The data are aggregated at EU level and broken down by Member State (MS), covering the period between 2014 and end 2021. Section 2 presents the progress realised towards the EU common target indicators linked to P4.

1. Financial expenditure (RD Priority 4)

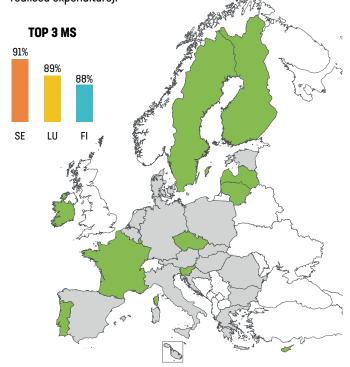

This section presents information on the progress made on public financial expenditure until December 2021, aggregated at EU level (EU-27) and broken down by Member State. The information includes planned, committed and realised expenditures, and the progress made towards achieving the planned public expenditures under P4.

Source of information: All data presented in this factsheet is collected from the Annual Implementation Reports (AIRs) submitted by Member States to the Commission by the end of June 2022. Data was retrieved in January 2023 from the 2022 AIRs. Exceptionally, the EURI planned expenditure is based on the latest adopted RDPs on 17 March 2023, while the EURI realised expenditure is based on declarations of expenditure up until Q4 2022.

In this factsheet, public expenditure means total public expenditure (= EAFRD + Member States matching funds + any national top-ups). Due to rounding, there may be small discrepancies between some figures presented. Data illustrated cover the programme implementation period between 2014-2021

Disclaimer: This factsheet aims to provide a user-friendly summary of the progress made in the implementation of the rural development policy. While based on monitoring data submitted by Member States to the Commission, the analysis was undertaken by the CAP Implementation Contact Point and the information presented should not be considered as official data from the European Commission.
