

Rural Development Priority 5 (P5): Promote resource efficiency and support the shift towards a low carbon and climate resilient economy in agriculture, food and forestry sectors

Situation at the end of 2021

This factsheet contains monitoring data aggregated at EU level (EU-27), providing a comprehensive overview of the state of play in the implementation of the rural development Priority 5 (P5) 'Promote resource efficiency and support the shift towards a low carbon and climate resilient economy in agriculture, food and forestry sectors'. In particular, Section 1 presents financial expenditure¹ including the additional funds introduced from the European Recovery Instrument (EURI). The data are aggregated at EU level and broken down by Member State (MS), covering the period between 2014 and end 2021. Section 2 presents the progress realised towards the EU common target indicators linked to P5.

1. Financial expenditure (RD Priority 5)

This section presents information on the progress made on public financial expenditure until December 2021, aggregated at EU level (EU-27) and broken down by Member State. The information includes planned, committed and realised expenditures, and the progress made towards achieving the planned public expenditures under P5.

1.1 P5 total public expenditure: planned, committed and realised

Table 1: Overview of financial expenditure for P5 at EU level (EU-27) - Billion EUR.

Map 1: Member States with progress towards their P5 planned public expenditures above the EU average of 47% (based on realised expenditure).

¹ Financial expenditure includes:

- i) **Committed expenditures** are related to all those applications that have been approved by the Managing Authorities/Paying Agencies
- ii) **Realised expenditures** are related to all those operations that have been completed and the last payment made.

1.2 Progress towards planned expenditures per priority 5 (%), by member state

The following graph illustrates the planned public expenditure on P5 (purple bars), and the progress made toward achieving it (orange dots based on realised expenditure) by Member State.

Graph 1: P5 Planned Public Expenditure (million EUR) and progress (%)

2. Main Achievements - Target indicators (1)

The following table provides information on the EU Common Target indicators related to P5 by Member State. It includes information on planned targets and the progress made to achieve them at the end of 2021 (based on realised expenditure*). Data is provided by Member State and aggregated at EU-level.

Source of information: All data presented in this factsheet is collected from the Annual Implementation Reports (AIRs) submitted by Member States to the Commission by the end of June 2022. Data was retrieved in January 2023 from the 2022 AIRs. Exceptionally, the EURI planned expenditure is based on the latest adopted RDPs on 17 March 2023, while the EURI realised expenditure is based on declarations of expenditure up until Q4 2022.

In this factsheet, public expenditure means total public expenditure (= EAFRD + Member States matching funds + any national top-ups). Due to rounding, there may be small discrepancies between some figures presented. Data illustrated cover the programme implementation period between 2014-2021

Disclaimer: This factsheet aims to provide a user-friendly summary of the progress made in the implementation of the rural development policy. While based on monitoring data submitted by Member States to the Commission, the analysis was undertaken by the CAP Implementation Contact Point and the information presented should not be considered as official data from the European Commission.
